LEVER TYPE TUBE EXPANDERS

For soft and half-hard copper, brass, soft aluminum and soft steel tubing - Maximum wall thickness 0,06" (1,6 mm). Studied for an easy expansion of the tubing ends in order to have a fitting-free tube installation. Re-rounds deformed tubing.

- Steel forged body;
- Longer lever arms, ergonomic handles reducing effort and increasing work space, safer handling;
- Steel expander heads to correct distorted tubing with diameter identification on for an easy recognition;
- Metal Carrying Case for long-term protection.

These Expander Heads fit other Lever Tube Expanders from different brands (Ridgid, Rothenberger...).

Model	Description
TLE6	Tube Expander Set with Head for Ø 3/8", 1/2", 5/8", 3/4", 7/8", 1" O.D. tubing. Metal case.
TLE6MM	Ø 10, 12, 15, 16, 18, 22 mm. O.D. tubing. Metal Case.
